

# WELDING INSPECTION COURSE

## Course details:

This course is designed to provide candidates with an in-depth knowledge to welding inspection technology.

It also gives a working ability to establish the Welding Procedure Specification (WPS), Procedure Qualification Records (PQR) and Qualify the Performance of Welders (WPQ) as per ASME Section IX, AWS D1.1, etc.

The course is designed for candidates who are seeking to enter the welding industry or who are currently working in the industry or who want to appear for AWS CWI or CSWIP Examinations.

Hand-on practical shall be the added advantage of this course.

## Career prospects:

If a candidate successfully completes this welding inspection course, you will qualify to get work as a welding inspector or a welding engineer, or alternatively, he will be fully ready to take up the Welding Certifications Examination with AWS or TWI.

## Hours of study:

Theory Classes: 20 Hrs

Practical: 8 hrs

Examination: 4 hrs

(Total 4 days)

## Resources required:

ICO International shall provide classroom and Samples for Practical with Welding Gauges.

## Personal Protective Equipment (PPE) for Practical, responsibility is of candidate.

Required PPE:

- Safety boots
- Long sleeved cotton shirt
- Long pants or jeans
- Safety glasses
